PROGRAM TO PRINT EVEN NUMBERS FROM M TO N

```
#include<stdio.h>
#include<conio.h>
void main()
{ int m,n,i;
    printf("enter the value of m,n");
    scanf("%d %d",&m,&n);
    for(i=m;i<=n;i++)
    { if(i%2==0)
        {printf("\n %d",i);
        }
    }
    getch();
}</pre>
```

OUTPUT

```
enter the value of m,n4 12

4
6
8
10
12
```

HANDWRITTEN CODE

Develope a (priogram to print even numbers from m to n. #include (stdio.h) #include (conio.h) Void main () [int m,n,i; printf (66 Enter the value of m,n"); Scanf (66% % d % d", &m, &n); -for (i=m; i <= n; i+t) [if (i%2==0) [printf (66 \n % d", i);]		Develope a C program to mit
#include (stdio.h) # include (conio.h) Void main () { int m,n,i; print f (66 Enter the value of m,n"); Scanf (66% of d % d % d", &m, &n); for (i=m; i(=n; i+t) { if (i%2==0)		n. I Journ to prant even numbers from m to
